Sir

We the undersigned the students of the Sanscrit patasala and the inhabitants of Belur, Hassan District beg to approach your excellency with the following few lines an ernest prayer

1 It is over 27 years since the patasala was established here It is with the unanimous desire of the people that Mr Konde Narayana char has been continuing ever since as one of the members of the managing Committee of the institution He has been instrumental in getting good books to the library from the Government and from distinguished visitors to the place His zeal & devotion towards the improvement of Sanskrit learning, have been amply testified to, by many of the distinguished visitors. Copies of the testimonials and a list of books supplied to his private library have been enclosed for kind reference

2 3 once he applied to Government for the supply (gratis) of Sanskrit religious books published at Kumbakonam & received by Government For which he received from the Government Secretariat an endorsement re 4563/91 dated 12th March 1904 to the effect that certain books (Madhwa Sidhanta works) that had thereto been received, had been supplied to his library and the remainder would continue to be supplied in order of their reciept

Accordingly he received 89 Sheets of Numbers 31 + 29, 28 of No 30 and 576 of number 31 The rest were not received When he applied to Government for the rest in accordance with the endorsement quoted above, he received a negative reply So half the volumes are with him and the rest with Government Full portion is with neither

3 The above volumes are being supplied to the Sanskrit pathasala So there is only one set of books here If these are made use of by the pandits in course of their teaching, the students cannot readily follow the teaching

in

the absence of books in their hands So it will be of immense help to us if your excellency in accordance with the above endorsement will kindly get the Xerox Narayana char supplied with the remaining portion that has hitherto accumulated and that to be published hereafter

For which act of generosity and kindness, we shall ever feel grateful

A copy of endorsement has been enclosed for ready reference

We beg to remain

Sir

Your most obedient and humble servants

I remember with much pleasure

my visit to your temple at Belur you

I am much obliged to Mr K Narayanchariar one of the committee member of the Belur Sanskrit school for his having escorted to the temple on the 10th August 1903 and explained to me the puranic traditions and history connected with many of the carvings in the pillars and ceilings of the temple as well as the current tradition about the origin and construction of this magnificent piece of architecture As he is one who takes a deal of interest and trouble in showing visitors over the place it would be really doing a piece of service to the public to keep him supplied with copies of Photo plates of the inscriptions recently prepared by the archaeological department of Mysore and I earnestly trust as Mr Thomson of Mysore has done he will ere long get the copies

This is to certify that I found mr Konde Narayana charya very courteous and intelligent having a good knowledge of more than one subject of Sanskrit lore and others wise very useful not only to those who came to see the temples of Belur as a best specimen of historical + artistic architecture of south India of Pre-Mahamedan period but also as one giving information about the best Jaina Sanskrit works of the canarese country. For this reason as well as for his being a most zealous member of the school board and committee of the Sanskrit + Vedic school of the place he deserves to have the patronage of every lover of Sanskrit literature and India antiquities + authors on the above his subjects Belur 13 Sept 06 (Sd) Narayana Narasimha manledar Kalinagara or Kaar

K Narayan Acharya was very helpful and courteous
us in showing round the Belur temple He is a very
anxious to obtain a copy of the inscriptions which
are contained in the volume dealing with the Hassan
District apparently the edition in which the Roman
character is used would be of no use to him and I am
not certain whether the Government is in the later
issues of the series bringing out a separate edition
in which the Kanarese character is employed If
that be the case I think that a presentation copy
might well be bestowed on a Bhahaman of the town
both for his own benefit and for the profit of visits
to whom he has the opportunity of showing the ancient
